The screenshot shows a software interface for editing a 'PeopleGroupFlat' object. The interface is divided into several sections:

- Top Bar:** Contains a 'View' button, a '1' button, and a set of icons including a magnifying glass, a trash can, and a key.
- Form Fields:**
  - Name:** A text field containing the value '([Functions \$PeopleGroupsFlat])'.
  - Alias:** A text field containing the value '\$PeopleGroupsFlat'.
  - Comment:** An empty text field.
  - Standard:** A dropdown menu with 'Standard' selected.
- SQL Query Editor:**
  - Run:** A dropdown menu with 'Form.ds' selected.
  - SQL Query:** A text area containing the query: `SELECT (Type="Peson" | (Type="Group" & GroupType="0"."1"))`
- Objects Panel:**
  - Reference:** A section with a 'PeopleGroupFlat' object selected, indicated by a hatched box.
  - Form:** A radio button option.
  - H:** A radio button option.
  - T:** A radio button option.

The entire interface is enclosed in a window with a title bar and standard window controls (minimize, maximize, close).
